

VISTA

HOME

This elegant, triple-gabled home blends strong architectural form with refined materiality. The linear plan stretches across the landscape, maximizing light and views with full-height glazing while offering clear spatial zoning between public and private realms. Internally, vaulted ceilings and exposed beams create a sense of volume, while the thoughtful integration of outdoor living via a pergola-covered deck promotes a lifestyle of ease and openness. The bold black brick exterior, softened by timber pergola and lush lawn, adds visual drama and timeless appeal. Perfectly suited for both suburban and semi-rural contexts, the design balances functionality, beauty, and performance.
