

DOKO

HOME

This contemporary residence balances urban refinement with natural warmth. The exterior fuses vertical timber accents and robust concrete textures, while a pair of asymmetrical Mono-pitch roofs provide dynamic elevation. Inside, thoughtfully segmented spaces deliver functionality and flow – from the generous open-plan core to the private office and dual living areas. Upstairs, the layout prioritises privacy and comfort with a luxurious master suite, central void for light, and seamless indoor-outdoor access via a balcony. Ideal for modern family life, the home is framed by lush plantings and a broad sun-soaked deck, offering sanctuary and style in equal measure.
